

3.1 Product Backlog

Module 1: Account & Identity Module

Requirement ID	Backlog ID	User Story
FR-23	PB-33	As a new user, I want to select my specific role such as Candidate, Host, Administrator during registration so that I am granted access to the correct dashboard and features.
FR-24	PB-34	As a registered user, I want to log in using my valid system credentials so that I can securely access my personal platform profile.
FR-25	PB-35	As an authenticated user, I want to securely log out of the portal so that my active session is destroyed and unauthorized account access on shared devices is prevented.
FR-26	PB-36	As a user who forgot their password, I want to request a secure password reset link via my registered email so that I can safely restore access to my account.
FR-27	PB-37	As a registered user, I want to update my personal account details and profile settings so that my information remains accurate and up to date.
FR-53	PB-38	As a platform user, I want to communicate with other portal stakeholders through a secure in-app messaging system so that all project and interview communications remain centralized within the application.
FR-53	PB-39	As an employer or student, I want to utilize an integrated workspace scheduling tool to set up

		interview slots or project milestone reviews so that we don't have to use external texting channels.
--	--	--

Module 2: Job Posting & Application Module

Requirement ID	Backlog ID	User Story
FR-01	PB-40	As a student candidate, I want to submit a comprehensive application containing my personal details, academic history, and skills so that employers can evaluate my qualifications.
FR-01	PB-41	As a student candidate, I want to state my internship learning goals explicitly inside my application workflow so that my project expectations align with the employer's scope.
FR-02	PB-42	As a student candidate, I want to upload rich media materials like video introductions, presentation slides, and portfolio links so that I can showcase a comprehensive engineering portfolio.
FR-03	PB-43	As a student candidate, I want to compile and submit all my application materials and documents through a single, unified workflow interface so that I don't have to manage scattered channels.
FR-15	PB-44	As an employer, I want to create, edit, and view my active micro-internship listings so that I can easily manage my company's talent pipeline.

FR-15	PB-45	As an employer, I want to duplicate and reuse past internship job postings so that I can save time when advertising recurring structural tasks.
FR-16	PB-46	As an employer, I want the system to generate unique, shareable tracking links for my job postings so that I can distribute them easily across external professional platforms like LinkedIn.
FR-17	PB-47	As an external applicant, I want to submit a direct application natively through a public platform landing page so that I do not experience external redirection friction.
FR-22	PB-48	As an industry host or senior student, I want to post or apply for combined Final Year Project (FYP) industry collaboration opportunities so that research milestones align with corporate needs.

Module 3: Candidate Screening & Evaluation

Requirement ID	Backlog ID	User Story
FR-04	PB-17	As an employer, I want to create open-ended screening questions so that I can assess candidates beyond their resumes.
FR-05	PB-18	As an HR staff member, I want the system to store candidate information including skills, achievements, portfolios, and responses so that candidate records can be managed centrally.
FR-06	PB-19	As an HR staff member, I want to view a complete candidate profile so that I can evaluate applicants efficiently from a single interface.

FR-07	PB-20	As an HR staff member, I want to filter candidates based on skills, CGPA, achievements, and project experience so that I can identify suitable candidates quickly.
FR-08	PB-21	As an HR staff member, I want to compare multiple candidates side by side so that I can make informed hiring decisions.
FR-09	PB-22	As an HR staff member, I want to update candidate application statuses so that recruitment progress can be tracked accurately.
FR-11	PB-23	As an HR staff member, I want to record evaluation notes and assessments for candidates so that recruitment decisions are documented.
FR-12	PB-24	As an HR staff member, I want to shortlist qualified candidates so that they can proceed to the next stage of recruitment.
FR-12	PB-25	As an HR staff member, I want to forward shortlisted candidates to hiring managers so that further evaluation can be conducted.
FR-13	PB-26	As an HR staff member, I want to create interview time slots so that candidates can schedule interviews conveniently.
FR-13	PB-27	As a candidate, I want to select an available interview slot so that I can attend an interview at a suitable time.
FR-14	PB-28	As an HR staff member, I want interview schedules to synchronize with external calendars so that scheduling conflicts are minimized.
FR-18	PB-29	As an HR staff member, I want candidates to be ranked based on matching criteria so that the most suitable applicants can be identified quickly.
FR-19	PB-30	As an HR staff member, I want recommended candidates to be highlighted separately so that top applicants are easier to identify.

FR-20	PB-31	As an employer, I want candidates to submit structured or timed video responses so that communication and presentation skills can be assessed.
FR-21	PB-32	As an employer, I want to configure screening questions for different job postings so that candidate suitability can be evaluated consistently.

Module 4: Academic Supervision & Tracking

Requirement ID	Backlog ID	User Story
FR-10	PB-10.1	As a student candidate, I want to view a live visual status tracker for my application so that I know exactly what stage it is in.
FR-28	PB-28.1	As a student, I want to view a consolidated application dashboard so that I can monitor all my submissions in one glance.
FR-29	PB-29.1	As a student, I want to edit my submitted application details before the deadline so that I can correct any mistakes.
FR-29	PB-29.2	As a student, I want to withdraw a submitted application before the deadline so that I am removed from consideration if my plans change.
FR-30	PB-30.1	As a student, I want to submit a rating and a milestone review for my completed internship so that I can provide valuable feedback.
FR-31	PB-31.1	As a student, I want to log my daily/weekly progress entries and track goal achievements in a

		digital logbook so that I can maintain my progress log.
FR-32	PB-32.1	As a university or industry partner user, I want to access a shared collaborative workspace to view statements and project alignments so that we can bridge university and corporate fields.
FR-33	PB-33.1	As a lecturer, I want to access an interface to view and monitor my assigned students' uploaded reports and logs so that I can track their supervision milestones.
FR-34	PB-34.1	As a lecturer, I want to review my assigned students' project planning graphs and task progress timelines so that I can check their workflow and placement timelines.
FR-35	PB-35.1	As a company representative, I want to add custom specialization tags (e.g., Software Engineering, AI) to my internship posting so that I can attract targeted cohorts.
FR-36	PB-36.1	As an administrative coordinator, I want to use a digital Verification Checklist matrix covering Insurance, Visa, Pay Model, and CS relevance so that I can verify placement compliance.
FR-37	PB-37.1	As a compliance coordinator, I want the system to trigger a Liaison Flag for non-translatable company websites so that specific language-proficient lecturers are automatically notified for review.

FR-40	PB-40.1	As a student, I want to upload my digital internship offer letter through a secure workflow so that it can be mapped to the database for coordinator verification.
FR-41	PB-41.1	As a university lecturer, I want to view weekly logbook submission trends and integrate company visit planning tools so that I can schedule field site visits effectively.

Module 5: Operations, Compliance & Analytics

Requirement ID	Backlog ID	User Story
FR-38	PB-01	As a career centre staff member, I want to generate statistical reports on student placements so that I can monitor internship participation.
FR-38	PB-02	As a career centre staff member, I want to view company acceptance and rejection statistics so that I can evaluate internship outcomes.
FR-39	PB-03	As a student, I want to view detailed job descriptions so that I can understand internship responsibilities before applying.
FR-42	PB-04	As a career centre staff member, I want to access an administrative dashboard so that I can monitor internship postings and student participation.
FR-43	PB-05	As a career centre staff member, I want to approve internship postings before publication so that only valid postings are published.
FR-43	PB-06	As a career centre staff member, I want to reject internship postings that violate guidelines so that students are protected from unsuitable opportunities.
FR-44	PB-07	As a career centre staff member, I want to generate internship outcome reports so that I can support academic and accreditation requirements.

FR-45	PB-08	As a career centre staff member, I want to track student internship participation through a dashboard so that I can monitor engagement levels.
FR-46	PB-09	As a career centre staff member, I want to view analytics on student applications, matches, and placements so that I can evaluate portal effectiveness.
FR-47	PB-10	As a career centre staff member, I want to manage employer profiles so that I can maintain relationships with industry partners.
FR-48	PB-11	As a career centre staff member, I want to verify employer credibility so that only legitimate employers can recruit students.
FR-49	PB-12	As a career centre staff member, I want to coordinate internship programs with employers so that internship opportunities can be organized efficiently.
FR-50	PB-13	As an employer, I want to collaborate with career centres on internship requirements and expectations so that internship objectives are aligned.
FR-51	PB-14	As a career centre staff member, I want to receive employer feedback on student performance so that future internship matching and preparation can be improved.
FR-52	PB-15	As a career centre staff member, I want the system to generate AI-generated summaries from supervisor feedback forms so that feedback can be reviewed quickly.
FR-52	PB-16	As a career centre staff member, I want the system to generate AI analytics from supervisor feedback forms so that common strengths and weaknesses can be identified.

3.2 Acceptance Criteria:

PB-17: Create Open-Ended Screening Questions

Acceptance Criteria:

- Employers shall be able to create screening questions.
- Questions shall support open-ended text responses.
- Questions shall be linked to specific job postings.
- Employers shall be able to edit screening questions before publishing.
- Screening questions shall be saved successfully.

PB-18: Store and Manage Candidate Information

Acceptance Criteria:

- The system shall store candidate skills.
- The system shall store academic information.
- The system shall store portfolio links and achievements.
- The system shall store project experience and screening responses.
- Candidate records shall be retrievable by authorized users.

PB-19: View Complete Candidate Profile

Acceptance Criteria:

- HR staff shall be able to access candidate profiles.
- Profiles shall display personal information.
- Profiles shall display uploaded materials and portfolios.
- Profiles shall display screening responses.
- All candidate information shall be available in a single interface.

PB-20: Filter Candidates

Acceptance Criteria:

- HR staff shall be able to filter candidates by skills.
- HR staff shall be able to filter candidates by CGPA.
- HR staff shall be able to filter candidates by achievements.
- HR staff shall be able to filter candidates by project experience.
- Filter results shall be displayed within 2 seconds under normal load.

PB-21: Compare Candidates

Acceptance Criteria:

- HR staff shall be able to select multiple candidates.
- Candidate attributes shall be displayed side by side.
- Comparison shall include skills, academic information, and achievements.
- Comparison results shall be presented clearly.
- Only authorized HR users shall access comparison functionality.

PB-22: Update Candidate Application Status

Acceptance Criteria:

- HR staff shall be able to assign application statuses.
- Available statuses shall include Applied, Shortlisted, Screening, Interview, Offered, Rejected, and KIV.
- Status changes shall be saved successfully.
- Updated statuses shall be visible to candidates.
- Status information shall remain consistent across all system views.

PB-23: Record Evaluation Notes and Assessments

Acceptance Criteria:

- HR staff shall be able to enter evaluation notes.
- HR staff shall be able to update assessments.
- Notes shall be linked to the correct candidate.
- Evaluation records shall be stored securely.
- Evaluation activities shall be logged for auditing purposes.

PB-24: Shortlist Qualified Candidates

Acceptance Criteria:

- HR staff shall be able to mark candidates as shortlisted.
- Shortlisted candidates shall be clearly identified.
- Shortlisting actions shall be recorded.
- Candidate status shall be updated automatically.
- Only authorized HR staff shall perform shortlisting.

PB-25: Forward Candidates to Hiring Managers

Acceptance Criteria:

- HR staff shall be able to forward shortlisted candidates.
- Hiring managers shall receive forwarded candidate information.
- Forwarding history shall be recorded.
- Candidate profiles shall remain accessible after forwarding.
- Only shortlisted candidates shall be eligible for forwarding.

PB-26: Create Interview Time Slots

Acceptance Criteria:

- HR staff shall be able to create interview slots.
- Interview slots shall include date and time information.
- Multiple interview slots shall be supported.
- Slot availability shall be displayed to candidates.
- Created slots shall be saved successfully.

PB-27: Select Interview Slots

Acceptance Criteria:

- Candidates shall be able to view available interview slots.
- Candidates shall be able to select one available slot.
- Booked slots shall no longer be available for other candidates.
- Confirmation shall be displayed after successful booking.
- Selected interview details shall be stored.

PB-28: Synchronize Interview Schedules

Acceptance Criteria:

- Interview schedules shall synchronize with external calendar systems.
- Synchronization shall occur within 1 minute of updates.
- Calendar conflicts shall be detected.
- Synchronization accuracy shall be at least 99%.
- Updated schedules shall be reflected in both systems.

PB-29: Rank Candidates

Acceptance Criteria:

- The system shall rank candidates based on predefined criteria.

- Ranking criteria shall include skills matching.
- Ranking criteria shall include academic performance.
- Ranking criteria shall include project relevance and achievements.
- HR staff shall be able to override ranking results.

PB-30: Highlight Recommended Candidates

Acceptance Criteria:

- Recommended candidates shall be displayed separately.
- Recommendation status shall be based on ranking results.
- Highlighted candidates shall remain visible in search results.
- HR staff shall be able to view recommendation reasons.
- Recommendation results shall update automatically when rankings change.

PB-31: Submit Video Screening Responses

Acceptance Criteria:

- Candidates shall be able to record or upload video responses.
- Employers shall be able to define response duration limits.
- Video submissions shall be linked to the correct application.
- Uploaded videos shall be stored successfully.
- Authorized employers shall be able to review submitted videos.

PB-32: Configure Screening Questions

Acceptance Criteria:

- Employers shall be able to create screening question sets.
- Different question sets shall be assignable to different job postings.
- Employers shall be able to edit screening questions.
- Screening questions shall be displayed during application submission.
- Question configurations shall be saved successfully.

This line is for record purpose, so later can identify starting from where need to change PB id
(oh mcm ctrl + f oso can nvm la hehe)

PB-01: Generate Statistical Reports

Acceptance Criteria:

- User must be authenticated as Career Centre Staff.
- System shall generate student placement statistics.
- Report shall display total students placed.
- Report shall display participating companies.
- Report shall display participating industries.
- Report shall be generated successfully within 5 seconds.

PB-02: View Company Acceptance and Rejection Statistics

Acceptance Criteria:

- User must be authenticated as Career Centre Staff.
- System shall display total accepted applications.
- System shall display total rejected applications.
- Statistics shall be presented in graphical or tabular format.
- User shall be able to filter statistics by date range.

PB-03: View Detailed Job Descriptions

Acceptance Criteria:

- Job descriptions shall display job title.
- Job descriptions shall display job scope and responsibilities.
- Job descriptions shall display required skills.
- Job descriptions shall display internship duration.
- Information shall be available before application submission.

PB-04: Access Administrative Dashboard

Acceptance Criteria:

- Only authorized Career Centre Staff shall access the dashboard.
- Dashboard shall display internship postings.
- Dashboard shall display student participation statistics.
- Dashboard shall display employer statistics.
- Dashboard information shall be updated automatically.

PB-05: Approve Internship Postings

Acceptance Criteria:

- Career Centre Staff shall be able to review posting details.
- Career Centre Staff shall be able to approve postings.
- Approved postings shall become visible to students.
- Approval records shall be stored in the system.
- Approval actions shall be logged for auditing purposes.

PB-06: Reject Internship Postings

Acceptance Criteria:

- Career Centre Staff shall be able to reject postings.
- A rejection reason must be provided.
- Employers shall receive rejection notifications.
- Rejected postings shall not be visible to students.
- Rejection actions shall be logged.

PB-07: Generate Internship Outcome Reports

Acceptance Criteria:

- User must be authenticated as Career Centre Staff.
- System shall generate internship outcome reports.
- Reports shall include placement statistics.
- Reports shall include acceptance and rejection statistics.
- Reports shall be downloadable in PDF format.

PB-08: Track Student Internship Participation

Acceptance Criteria:

- Dashboard shall display total participating students.
- Dashboard shall display application counts.
- Dashboard shall display placement counts.
- Dashboard shall display participation trends.
- Information shall be updated automatically.

PB-09: View Application, Matching, and Placement Analytics

Acceptance Criteria:

- System shall display application statistics.
- System shall display matching statistics.

- System shall display placement statistics.
- Analytics shall be presented using charts or graphs.
- Analytics shall be accessible only to authorized users.

PB-10: Manage Employer Profiles

Acceptance Criteria:

- Career Centre Staff shall be able to view employer profiles.
- Career Centre Staff shall be able to update employer information.
- Career Centre Staff shall be able to search employer profiles.
- Changes shall be saved successfully.
- Profile modifications shall be logged.

PB-11: Verify Employer Credibility

Acceptance Criteria:

- Career Centre Staff shall be able to review employer information.
- Supporting documents shall be viewable.
- Verification status shall be recorded.
- Verified employers shall be clearly identified.
- Unverified employers shall not be allowed to publish internship postings.

PB-12: Coordinate Internship Programs with Employers

Acceptance Criteria:

- Career Centre Staff shall be able to create coordination records.
- Employers shall be able to view coordination details.
- Updates shall be saved automatically.
- Communication history shall be maintained.
- Authorized users shall be able to access coordination records.

PB-13: Collaborate on Internship Requirements and Expectations

Acceptance Criteria:

- Employers shall be able to submit internship requirements.
- Career Centre Staff shall be able to review requirements.
- Both parties shall be able to update requirement information.
- Collaboration records shall be stored.

- Latest requirement details shall be visible to authorized users.

PB-14: Receive Employer Feedback on Student Performance

Acceptance Criteria:

- Employers shall be able to submit student performance feedback.
- Feedback shall be linked to the correct student.
- Career Centre Staff shall be able to view submitted feedback.
- Feedback records shall be stored securely.
- Only authorized users shall access feedback records.

PB-15: Generate AI-Generated Feedback Summaries

Acceptance Criteria:

- System shall process supervisor feedback forms.
- AI shall generate a concise summary of feedback.
- Summary shall highlight major feedback points.
- Generated summaries shall be available to authorized users.
- Summaries shall be stored for future reference.

PB-16: Generate AI Feedback Analytics

Acceptance Criteria:

- System shall analyze supervisor feedback data.
- AI shall identify common strengths across feedback.
- AI shall identify common weaknesses across feedback.
- AI shall generate trend analytics and insights.
- Analytics shall be accessible only to authorized users.

Module 4: Academic Supervision & Tracking

PB-10.1: As a student candidate, I want to view a live visual status tracker for my application so that I know exactly what stage it is in.

Acceptance Criteria:

- The application detail page must display a dynamic, horizontal progress tracking bar.

- The tracking phases must explicitly show the following statuses: *Submitted*, *Under Review*, *Shortlisted*, *Offered*, and *Rejected*.
- Status updates must align with NFR-29, showing 100% consistency and reflecting database state changes instantly without desynchronization.
- The current state must be highlighted using clear, distinct visual cues (e.g., green for current/successful steps, red for rejection).

PB-28.1: As a student, I want to view a consolidated application dashboard so that I can monitor all my submissions in one glance.

Acceptance Criteria:

- The application dashboard page must load fully within 2 seconds to meet NFR-10 performance standards.
- The dashboard must display a tabular grid listing: Company Name, Position Title, Submission Date, and Current Status.
- Users must be able to filter the list by status and sort entries chronologically by submission date.

PB-29.1: As a student, I want to edit my submitted application details before the deadline so that I can correct any mistakes.

Acceptance Criteria:

- The "Edit Application" button must only be active if the current server timestamp is strictly before the posting's application deadline.
- Once clicked, fields such as CV upload, statement of purpose, and contact information must become editable input forms.
- Saving edits must prompt a confirmation modal displaying: *"Are you sure you want to save changes to your submission?"*
- The "Edit Application" capability must dynamically disappear or lock with an explanatory tooltip once the system clock hits the deadline.

PB-29.2: As a student, I want to withdraw a submitted application before the deadline so that I am removed from consideration if my plans change.

Acceptance Criteria:

- A "Withdraw Application" option must be accessible on active submissions up until the deadline.
- Clicking "Withdraw" must trigger a warning modal stating: *"This action cannot be undone. Are you sure you want to withdraw your application?"*
- Upon confirmation, the application status must update immediately to "Withdrawn" across all portals (student and company views).

- The system must remove the candidate profile from the company's active applicant funnel automatically.

PB-30.1: As a student, I want to submit a rating and a milestone review for my completed internship so that I can provide valuable feedback.

Acceptance Criteria:

- The review form must include a required 5-star metric system for overall experience, workplace culture, and learning curve.
- A rich-text area for the written review must require a minimum of 50 characters and cap out at 2,000 characters.
- The submission interface must provide an optional "Anonymize my review" checkbox to shield student identity on public company profiles.
- Successfully saving the review must recalculate the aggregate rating score of the company posting within the system backend immediately.

PB-31.1: As a student, I want to log my daily/weekly progress entries and track goal achievements in a digital logbook so that I can maintain my progress log.

Acceptance Criteria:

- The interface must present a digital entry matrix for logging daily working hours, completed tasks, and self-evaluation milestones.
- A clear progression gauge (0% to 100%) must visualize current goal achievements against predefined university learning outcomes.
- The system must automatically lock logbook entries for editing exactly 7 days after the respective tracking week concludes to preserve submission integrity.

PB-32.1: As a university or industry partner user, I want to access a shared collaborative workspace to view statements and project alignments so that we can bridge university and corporate fields.

Acceptance Criteria:

- The system must restrict workspace access via Role-Based Access Control (RBAC), limiting visibility exclusively to corporate stakeholders and faculty supervisors matching that exact placement.
- The dashboard must feature a dedicated module to input, view, and append "Faculty Interview Statements" detailing internship adjustments.
- An integrated version control timeline must track who made edits, additions, or uploaded shared program blueprints within the workspace.

PB-33.1: As a lecturer, I want to access an interface to view and monitor my assigned students' uploaded reports and logs so that I can track their supervision milestones.

Acceptance Criteria:

- The lecturer homepage must provide a "Supervision Dashboard" grouping all currently assigned students.
- The interface must feature a visual flag (e.g., an unread counter or status badge) next to students who have uploaded fresh reports or weekly logs.
- Lecturers must be able to view documents natively in an in-app viewer or download them securely via authorized links.

PB-34.1: As a lecturer, I want to review my assigned students' project planning graphs and task progress timelines so that I can check their workflow and placement timelines.

Acceptance Criteria:

- The system must display student project tasks in an interactive timeline chart (e.g., a Gantt chart layout or Kanban board summary).
- The workflow tool must cross-reference actual student task completion dates against the baseline placement timeline template.
- Slippages or delayed milestones must be highlighted visually in amber or red to facilitate timely supervisory intervention.

PB-35.1: As a company representative, I want to add custom specialization tags (e.g., Software Engineering, AI) to my internship posting so that I can attract targeted cohorts.

Acceptance Criteria:

- The internship creation form must include a searchable multi-select tag element for student specializations.
- The field must provide autocomplete text matching predefined institutional specializations (e.g., Software Engineering, AI, Data Science, Cybersecurity).
- Postings flagged with these custom tags must automatically pin themselves to the custom recommendation feeds of students declared within those matching cohorts.

PB-36.1: As an administrative coordinator, I want to use a digital Verification Checklist matrix covering Insurance, Visa, Pay Model, and CS relevance so that I can verify placement compliance.

Acceptance Criteria:

- The checklist interface must display a 4-pillar verification matrix covering: *Insurance Validation, Visa Status Compliance, Pay Model Legality, and Computer Science Academic Relevance.*
- Each compliance field must feature a toggle state (Pass / Fail / Pending Review) along with a mandatory description text box if marked as "Fail".

- The overall application placement status cannot be upgraded to "Approved" unless all four matrix conditions are positively checked off and validated by the coordinator.

PB-37.1: As a compliance coordinator, I want the system to trigger a Liaison Flag for non-translatable company websites so that specific language-proficient lecturers are automatically notified for review.

Acceptance Criteria:

- During the screening phase, the coordinator must have access to a "Trigger Language Liaison" action button if a company website cannot be natively translated or processed.
- Triggering the flag must open a dialogue box to select the required language expertise.
- Upon submission, the platform must cross-reference the university's staff directory and fire an automated email and system notification directly to lecturers tagged with that specific language proficiency.
- The application status must be appended with an international review banner blocking further clearance until the assigned lecturer logs an appraisal statement.

PB-40.1: As a student, I want to upload my digital internship offer letter through a secure workflow so that it can be mapped to the database for coordinator verification.

Acceptance Criteria:

- The file upload input interface must restrict formats strictly to PDF, PNG, and JPEG files with a maximum size boundary of 10MB.
- Upon file processing, the platform must map the upload metadata to the exact applicant record ID and associate it with the destination corporate entity profile.
- The student must receive a successful upload alert toast message, and the tracking status must transition to "Awaiting Offer Verification".

PB-41.1: As a university lecturer, I want to view weekly logbook submission trends and integrate company visit planning tools so that I can schedule field site visits effectively.

Acceptance Criteria:

- The supervisory portal must compile a macro-level grid showing continuous weekly logbook submission compliance across all assigned students.
- Clicking "Plan Site Visit" must launch an integrated map and scheduling module that extracts the host company's physical address from the database.

- The tool must group companies by geographical proximity or postal zones to allow lecturers to plan and optimize travel schedules for physical company visits.
